

Fruit Feeder

0-0-16+10(S)

Read entire label prior to use.

Guaranteed Minimum Analysis:

Soluble Potash (K₂O): 16.0 %
Sulphur (S): 10.0 %

Directions for Use:

- This product should be used as a part of a complete fertilizer program. Plants will require additional sources of major and possibly secondary and minor nutrients.
- The user should seek advice of a professional in the industry for further information.
- This product should only be used by commercial producers.
- Do not apply with herbicides.
- Do not apply in hot conditions.
- Jar test before mixing with other products.

Application Rates:

Apply at 2.5—5 L per hectare (1-2 L per acre).

Mix well prior to use. Half-fill application tank. While agitating, slowly add product. Continue filling tank. Agitate while applying product. Apply product immediately following mixing.

Caution:

Avoid contact with eyes and prolonged contact with skin. If eyes or skin are exposed, flush with water. Do not use on container stock or in greenhouse production. The guidelines are based on the experiences of producers in the Fraser Valley. Always refer to soil test results before use.
