DIRECTIONS FOR USE: Allow Stick to warm to operating temperature (15–27° C) before use. **Unscrew plastic protective cap.** Apply directly to stems and leaves of weed with a twisting or turning action. For patches of small leafed weeds, contact all leaves with a twisting action. **Use light pressure. It is not necessary to leave a visible coating on the weed.** After use, replace protective cap.

WHEN TO USE: This product is only effective when applied to the leaves of actively growing weeds. This product will not prevent new weeds – apply only when weeds are present. Apply anytime when weeds are actively growing, preferably a day or two after mowing when temperature is between 15–27° C.

WHAT TO LOOK FOR: Twisted weed growth should appear in about a week. Some weeds may take 4-6 weeks to die.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN AND ANIMALS.

Avoid contact with skin, eyes and clothing. Do not touch wax tip to flowers, shrubs or trees or valuable plants. **DO NOT** contaminate irrigation/drinking water supplies or aquatic habitats by disposal of wastes.

Protective Clothing and Equipment: Wear long-sleeved shirt, long pants, socks, shoes and chemical resistant (eg., rubber) gloves.

Operator Use Precautions:

Rinse gloves before removal. Wash hands before eating, drinking, using tobacco or using the toilet. If pesticide penetrates clothing, remove immediately, then wash thoroughly and put on clean clothing. Remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water, then shower. Re-use gloves for pesticide application only.

STORAGE: Do not store near seed, fertilizer or other pesticides.

DISPOSAL: Do not reuse empty container. Wrap in newspaper and dispose of empty container in household garbage.

FIRST AID: If on skin or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice. **If swallowed,** call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person. **If in eyes,** hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

Re-Entry Interval: Do not allow people (other than applicator) or pets on treatment area during application. Do not enter treated areas for 24 hours.
