## Fall Products Listing 2014

### Vancouver island

The best time to apply limestone to your fields is in the fall for two reasons. First, from an agronomic point of view it makes the most sense. In our Fraser Valley soils there is an abundance of aluminum, which naturally reacts with water to produce hydrogen ions (H<sup>+</sup>). The presence of a concentration of H<sup>+</sup> creates acidity.

When limestone (calcium carbonate) is added to the soil, some of the calcium replaces aluminum at the cation exchange sites. Meanwhile, some of the carbonate combines with hydrogen to produce water and carbon dioxide. This reaction is not instant, especially if the limestone is not incorporated. Typically several months pass before the biggest change in pH takes place. If limestone is applied in the fall the pH should be increased just in time for fertilizing time in the spring.

Product	SKU #	Size	Description
Bunker Plastic	3774650	40' x 100' x 5 mil	Used as the primary covering on bunker silage
	3774660	25' x 100' x 5 mil	
	3774690	33' x 100' x 5 mil	
Bunker Cover / Tarp	3773160	12' x 300' (UV stab.)	Used to lie over top of Bunker Plastic to protect it. These layers are used to protect the silage in a bunker silo and keep the air from the silage.
	3773190	15' x 300' (UV stab.)	
Bunker Bags	7110473	Unit, 1 x 20 kg	Used to weigh down the bunker plastic and tarps, preventing air from spoiling the silage. Pre-filled with granular limestone.
	7110474	Skid-lot, 25 x 20 kg	Buy Bunker Bags in skid-lots of 25 bags at a time.
	3774950	Bundle of 50	Empty bags, for those who wish to fill their own bags with sand or gravel.
Silage Wrap, White	3774100	750 mm x 1500 m	UV radiation protection for 12 months. Multi-layered, co-extruded quality film for optimal silage quality.
Silage Wrap, Green	3774200	750 mm x 1500 m	
<b>Other Silage Products</b>			
Silage Inoculant	3425150	500 g	A packet of 500 grams treats 500 tonnes of silage. For corn or grass.

Product	SKU #	Size	Description
<b>Cover Crop Seed</b>			
Fall Rye	2015150	25 kg	Fall rye is a quick establishing cereal cover crop that can germinate at low temperatures. Very winterhardy and can withstand poor soils. Used most commonly as a cover crop in the Fraser Valley, but can be harvested for feed.
Winter Wheat	2015550	25 kg	A late maturing, winter-active cereal. Palatable and good for grazing the following spring.
Italian Ryegrass	2001110	22.7 kg	Italian Ryegrass does not form seed during the planting year. After planting it will grow quickly until frost, producing high-quality leaves. Some varieties may survive the winter, but survival depends on year-to-year conditions.
Other Seeds			Please download our "Fall Cover Crop Selection Guide" from our website at <a href="http://www.tlhort.com">www.tlhort.com</a> , or contact your sales representative to select the seed right for you.

Product	Description
Silage Corn Seed	TerraLink handles silage corn seed from Hyland and Mycogen. See our Silage Corn Seed Overview for each brand.
Hyland	See Variety Tech Sheets
Mycogen	See Variety Tech Sheets

Product	SKU #	Size	Description
Terra FreshStall <sup>®</sup>	7112313	25 kg	A bedding conditioner that can be used to replace hydrated limestone. It absorbs moisture and urine in bedding, improving the barn environment by reducing ammonia emissions. Terra FreshStall aerobically breaks down the litter and helps to control disease pathogens.
Soil Test	57090	Basic	Use soil tests to monitor your soil nutrients. Based on the results, TerraLink's recommendations will help keep your fertilizer costs as low as possible by applying ONLY what is needed and no more. Soil tests are an integral component of an Environmental Farm Plan.
	57160	Standard	
	57150	Detailed	

#### Fall Chemicals

Touchdown Total	1207980	2 x 10 L case	A glyphosate herbicide, Touchdown Total is a non-selective and non-residual herbicide for annual and perennial weeds. Helps control blackberries in the fall.
Credit 45	1005941	2 x 10 L case	Glyphosate herbicide. Contains a different salt than Touchdown Total
MCPA 500	1108000	2 x 10 L case	For the control of many broadleaf weeds in both forage stands and non-crop areas.
Mecoprop-P	1108200	2 x 10 L case	A liquid herbicide used to control broadleaf weeds in forage grass stands.
Sword	1206300	2 x 10 L case	A post-emergence herbicide for broadleaf weeds in forage grass stands.
Garlon XRT	1102413	2 x 10 L case	Controls woody plants, annual and perennial tough broadleaf weeds in pastures, rangelands and non-crop areas such as fence lines.
Grazon	1102850	2 x 10 L case	Controls deep-rooted perennial and biennial tough broadleaf weeds in rangelands, forage grass stands and non-crop areas such as fence lines.
